

Information issued on 10th of May ,2020. Please pay close attention to the latest information.

To foreign residents

※ Various information is provided regarding coronavirus, for more detail, please check the website or contact phone numbers listed on the reverse side.

Please pay special attention to infection of Novel coronavirus!

Many people have infected by novel coronavirus (COVID -19) and some have severe symptoms. Be careful not to catch the virus.

- Wear a mask when you go out or meet someone.
- Wash your hands and gargle when you get home from outside.
- Keep distance and ventilate a room when people gather.

When you develop a fever and cough . . .

- Please refrain from going to work or school and stay home.
- First, call the doctor near your home If you are worried about your condition.
- If you develop a fever, please take your temperature daily.
- Please call your nearest health center, when you are under such conditions as 1,2,or3.
 1. When you have difficulty breathing or feel exhausted.
 2. When people who are prone to serious condition (elderly, person who have pre-existing diabetes or heart failure, a person who is receiving dialysis, taking an immunosuppressant or anticancer drug) develop a fever or cough.
 3. When people who have a fever or cough for more than four days for those who do not belong to 2.

Other guidelines

• Pregnant woman

Follow the same guideline as people who are prone to serious condition. Consult a health center as soon as possible.

• Children

Please call and consult a health center or pediatrician about condition of your child.
